XXX YEAR

Ente Rio's is now as quiet as a convent and General Arias will return to this city to-morrow. The gallant officer is much praised for the moderation he everywhere displayed in dealing with last week's "chirindada."

The Rosario girls are all [too] jumpy. The Convention ball there on Saturday night was a failure, as all the best-looking Cívicos from Buenos Ayres remained away. Having to start for home by the first train on Sunday morning. This was really very bad. We had no idea that Cívicos could be so sleepy as to shirk a night's dancing.

A hundred and forty thieves were paraded in the police office on Sunday. They were photographed, weighed and examined marks on their bodies that will render identification certain at any future time. This identification by body marks was instituted by the Paris police, and is found to be absolutely infallible.

The custom amongst the lower classes of carrying firearms even at their balls led to a fatal accident on Saturday night at one of those reunions. A young fellow of good stock, drew his revolver and threatened to shoot a girl who had jilted him some time ago. While some friends were trying to take the weapon from him it went off, the bullet piercing the brain of another girl, killing her almost on the spot. Surely, the police could keep a sharper eye on such gatherings, and prevent the occurrence.

query about the English military rifle twenty years ago. We think the Minerva loader was in use then, and did as it was pitched up to a thousand feet.

The Rosario police prohibited roasting at the Convention meeting. This was unkind and unpatriotic. In this climate the roaster is essential for working up the spirit of the people. The only place where the scene in this city on the 7th of August, when every thundering rocket was made up with dancing and joyful hopes, yet, alas! unfulfilled.

It is a pity that the principal teacher of the Koch lymph is the most terrible person ever discovered by man, prussic acid, and "aqueo Tofana" being "germifera" compared with this. (One milligram of a grain is enough to kill millions of people.)

We are glad to hear that the Montevideo Zophiles are flourishing and doing much towards the prevention of cruelty to animals. We hope that the Montevideo is treated even more than here. We are, however, rapidly improving on this side of the Atlantic, and we are glad to hear that the Rosario to ram horses, (except by order leading them) is by no means so bad as it was some years ago.

It is a pity that the Rosario is not more liberal and more advanced than it is. It is a pity that the Rosario is not more liberal and more advanced than it is.

To be. There is a blasting rise in the prices again. Weeds that cost forty cents week now cost seventy, and will soon be a dollar, thanks to Gates and his measures that the rise is out of all proportion with fresh tax, and shows the kind of counsel tobaccoheans have.

An elegantly dressed young man, named Pagani was found dead in the Reco Cemetery on Saturday night last noon, about half the crowd artery in his neck, and a sister he loved. Grief for the recent death of a sister he loved very fondly, and whose tomb he took his own life was, cause of the sad act.

A CORRECTION

Sir,

In the phrase (in my letter which kindly published this morning) "to patiently and not fly into tantrums against our own land," I should have said, "six weeks," my friend the "Comp" set up "learn" instead of "boom." He forbids that, that I should, even indicate anymore more loans; the country has enough of them in already; they, or rather their mine-are, are mainly responsible for the mess we are in to-day.

I am etc.

Monday, January 19th.

The week opens on an expectant market, that is to say, as is thought in the City, the market will be settled for long, the time for speculation is definite, and the balance may be turned, and the possibilities of a further fall go down to the bottom of the market. There were more takers of exchange offering to-day, which naturally had a weakening influence on rates, and this, reacting on gold, caused a fall in the morning from 321 to 321, followed by a slight reaction, which left the rate at 2 p.m. at 318.50. Stock exchange was quiet, and the market supported that Cedula quotations in London had given way. National Bank shares and Catalinas just held their own. Commercial Bank shares were 113 under a sustained demand, attributed to a rumor that the bank had effected important land business which will stimulate the market.

the spirit is purely and wholly speculative and that no operation as the outcome of has been made. It may be well to state that the lands in point for the bank's Bahia Blanca property, and some of the others at present a variable bid in the market, it would be well to quote the report until full particulars are given. These lands play a most important role on 'Change; every time the quotations improve it is noted that there something new about these lands.

The following is a summary of operations effected this afternoon during first ring:—

Business at the second hour in stock was not so good as the first, but the sport in Constructors continued until 12 noon, and then again from 12 to 12.30, dropped again to 12.15, and finally fell off firm at 12. It was said that the bank had been made arrangements with the bank to take over Mr. Garfield's lien on the "Pasajero Colman," and as they intend giving the bank a loan of \$100,000, the bank's material assisted, which means of course an appreciated value for the shares. N. Catalinas at 20.10, O. Catalinas at 10.45

In exchange brokers reported very little doing through a scarcity of takers, and gold bills were done at 48 1/4, whilst the price of rice was quoted at 13 1/2 and 1 00 francs.

The following is a summary of the business effected in stocks during the second week—

After the close of the first hour to-morrow will be called to dispose of the following property of the General of the Republic of Paraguay-Argentina Company.

The sub-prefect of San Nicolas has been informed that Mr. J. C. Conzatti has offered at his own expense to purchase a large rock in the bed of the Ramallo which is an obstacle to all navigation, re- sulting in the loss of many boats.

Entre Rios advances announce the fact that there is all over the province and in the interior of the Republic of Uruguay a famine in full swing. In the Parana province the famine is the most terrible. The price of the faneza of 184 kilos, in 12 di- ctales 16.20 and in Villa Trizquia 15.12. The price of the faneza of 100 kilos, in 12 di- ctales 8.70 and the price of the faneza of 100 kilos 10.00.
